## PROFILE

Jocelin Flora brings creativity, precision, and a passion for organization to her role as Listing Manager at Lee & Associates Greenville/Spartanburg. A graduate of Anderson University, Jocelin combines her artistic eye with strong administrative skills to ensure every listing—from industrial properties to office spaces—is presented with excellence and accuracy.

With a background rooted in art and design, Jocelin approaches each project with an attention to detail that reflects both her education and her creative passions. She's a proud member of the National Art Honor Society and AUTF, organizations that celebrate artistry, craftsmanship, and innovation. Whether she's coordinating listing materials, assisting brokers, or refining client communications, Jocelin's calm focus and creative flair help keep every project moving seamlessly.

Outside of the office, Jocelin's interests span the worlds of creativity and curiosity—she's an avid reader and collector of special edition books, a lover of sculpture and design, and a dedicated gamer who enjoys unwinding with a good storyline and great visuals. Her diverse interests mirror the balance she brings to the Lee & Associates team: equal parts analytical and artistic, structured yet imaginative.
