

### MULTIFAMILY MARKET OVERVIEW

ROBERT LEVEEN, *Senior Vice President*

As of this writing, the 10 Year Treasury Note is 4.63%, an increase of over 60 bps since the last quarterly report. Sales activity has remained constrained due to rising interest rates and economic uncertainty. Multi-family interest rates are now in the mid-high six percent range. Nationally, there is now an over-supply of newly constructed units, the situation locally remains the same, a significant shortage of units. This will continue to drive demand for multi-family acquisitions as a prudent long term investment.
