

### MULTIFAMILY MARKET OVERVIEW

SHEENA SABATIER, *Marketing Director, Researcher*

The South Florida Multifamily market remains strong as rents continue to stabilize. Despite the country's current economic environment and inflationary concerns, South Florida's population growth and business migration has continued to help insulate the market that encourages new construction to press on with new demand. There are currently over 57,000 new units under construction, up by over 16,000 units year over year, and many new projects are in the pipeline. Absorption is rising again in Q2 after three consecutive quarters of slower absorption rates, although vacancy has been up slightly over the last two quarters. Property Value through Q2 showed an average of \$288k per unit with Cap Rates averaging 5.6%.
