

INDUSTRIAL MARKET OVERVIEW

DIANA PEREZ, *Director of Research*

The Chicago industrial market experienced its first increase in vacancy rate in this quarter since the third quarter of 2020. The increase was the result of the completion of speculative developments. The first quarter overall vacancy rate increased by only 6 basis points from the fourth quarter rate of 3.43% to 3.50%. Steady construction is predicted for 2023, with 101 projects totaling 36.2 million square feet currently under construction. The first quarter witnessed 7.1 million square feet of new construction deliveries. The first quarter net absorption totaled positive 5.2 million square feet. Although positive, this marks a 22.4% decline from the fourth quarter mark of 6.7 million square feet.
