

### OFFICE MARKET OVERVIEW

MIKE TINGUS, *President*

The office market showcased mixed trends throughout Q2, with leasing activities reaching levels not seen in nearly two years. However, issues of prolonged negative net absorption and near-record breaking vacancy rates remain prevalent. Leasing activity experienced a surge with 975,741 SF leased. Direct-ask lease rates remain high, averaging \$3.11 PSF. The sustained trends of negative net absorption and high vacancy rates become especially intriguing when juxtaposed with the concurrent increase in leasing activity. Hypotheses from industry experts suggest that such trends can be attributed to businesses continuing to re-evaluate their space and operational needs as they execute their return-to-office plans.
